Millennium Engineering and Integration Company

Headquarters: 1400 Crystal Drive, Suite 800, Arlington, VA 22202

Local Office: 6905 North Wickham Road, Suite 100, Melbourne, FL 32940

Reference: Netlander, Inc. Testimonial

To Whom It May Concern,

Netlander, Inc. is a successful and highly skilled SBA Certified HUBZone Small Business. NetLander, Inc. provided outstanding support to Millennium Engineering and Integration Company by supporting the NASA Kennedy Space Center (KSC) Exploration Ground Systems Program Support Contract (KLXS II) as a key partner and subcontractor.

NetLander, Inc. worked with Millennium extensively in the proposal phase, as well as performing Information Technology, Software Development, and Systems Engineering during the six years of successful contract execution.

The NetLander, Inc. team provided crucial support to the NASA and KLXS II staff and was recognized by NASA on numerous occasions by receiving multiple NASA awards for individual and team recognition, as well as contributing to successful completion of major EGS Program milestones.

Furthermore, Mr. Tom Beever, Netlander, Inc. President and Board Member, was instrumental in assembling the Information Technology Support Team and provided hands on support as needed to resolve any issues that would arise on the contract. Mr. Beever was very responsive and flexible to changes put forth by the Government. NetLander, Inc. has been a valuable subcontractor and partner complementing Millennium's capabilities and contributing to our overall culture of excellence.

I look forward to working with Tom, and the Netlander Team, on future opportunities.

Respectfully,

Al Wassel

Vice President and General Manager, Integrated Systems

Millennium Engineering & Integration Company
